When you own a car that's special you'll want to keep it in peak condition. That's also the way Ford feel about the cars they build. So no matter where you live in Britain you'll find one of the 400 Ford main dealers or the 900 retail dealers just a short drive away. And as well as your normal legal rights you get the benefit of an Assurance written in plain English that you can easily understand. Every Ford dealer offers the mechanical know-how, the equipment and the parts needed to give Ford owners the fast efficient and reliable servicing that you expect to keep your Capri II in good condition.

Ford Sure

If you take your car to any Ford main dealer or wherever you see the Ford Sure sign, you will get all the benefits of the new Ford Sure programme. It's an intelligently thought out scheme that brings together some of the finest technicians and the latest servicing equipment so that customers can be sure of an extra thorough, quality-controlled service. At a Ford Sure dealer you will find pleasant reception facilities where your car can be checked in with the minimum of delay. You will also find a special pre-booking system which cuts out unnecessary waiting and many dealers offer credit terms to simplify payment. What's more, you get a free service after 1,500 miles plus free diagnostic checks from the selling dealer at 15,000 and 27,000 miles—all you have to do is to have your normal servicing carried out at any Ford dealer. With every service or repair you will receive a plainly worded certificate expressing the dealer's confidence in the job he has done and if there should be a fault attributable to poor workmanship, the dealer will correct it without argument or charge. Ford Sure is the new look for Ford servicing in the seventies. Ford are proud of the after sales service that goes with their cars. It's what Ford Sure service is all about.

Ford prices are delivered prices Maximum Ford prices include delivery to Ford dealerships throughout the UK (except Northern Ireland). These prices are therefore, not directly comparable with those issued by motor manufacturers who also levy an additional delivery charge.

Performance Figures

All performance and economy figures quoted are Ford computed figures based on typical production vehicles.

Illustrations, Descriptions and Specifications

Ford policy is one of continuous improvement. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. Where possible, any such changes which may be introduced after publication of this booklet but before it is supplied will be incorporated herein or announced by means of a notice prominently displayed in Ford Dealerships at the point of supply. For the latest details always consult your Ford Dealer.

Ford Personal Import Export Limited

This catalogue applies to cars for the UK DOMESTIC MARKET. A number of specification differences exist on EXPORT MODELS.
