(f) *Blaschke's Lemma* (see a half-page script). The writer asserts: For incoming signals a and b , if the receiver r has a fixed α , then the power output is maximized when $\beta = \alpha$.

② Aerate two types available: fully automatic (200-4000 rpm) or manual (up to 1000 rpm) and the universal fully retrofittable and lockable model available in 1000 rpm.

④ **Installation and Suppression Kits** These kits are specially designed and tailored made for each model to ensure top performance.

Passenger Security and Auxiliary Lighting

① **Passenger Door Mirrors** Help those precise parking maneuvers. Essential in today's crowded town centres.

② **Sports Mirror** A lightweight door mirror that offers minimum air resistance.

③ **Air Horn** A powerful warning device to make other drivers sit up and take notice.

④ **Rear Seat Belts** Additional protection for your rear seat passengers with these safe and comfortable belts.

⑤ **Front Fog Lamps** Extra visibility when you need it with these halogen lamps. Bulbs are not included - supplied as part of a separate wiring kit.

⑥ **Long Range Lamps** Ease the strain of riding at night on those long and lonely roads. Bulbs are not included - supplied as part of a separate wiring kit.

⑦ **Rear Fog Lamp** Reassures drivers following to keep their distance and helps ward off fog problems.

⑧ **Motorcraft Replacement Bulb Kits - Halogen and Tungsten Types** Always keep a spare kit handy - you never know when it may be needed.

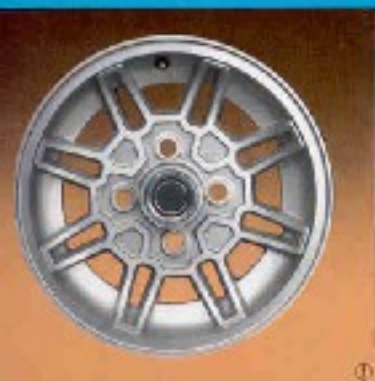

Comfort and Convenience, Travel

- ① **Headrests** These give you extra comfort and support with minimum restriction to rear vision. In black and red.
- ② **Map Reading Lamp** The best way to find where you are when it's dark. Fully adjustable, it gives a focused beam that will not dazzle.
- ③ **Contour Rubber Mats** Strong, hard wearing and tailor-made for the Ford Capri, they give extra floor protection. Easy to clean and available in black and grey.
- ④ **Rectangular Black Rubber Mats** Hard wearing and easy to clean.

- ⑤ **Ford Speed Control** Allows the driver to maintain a preselected speed without the need to depress the accelerator pedal. It also improves fuel consumption.
- ⑥ **Caravan Towing Mirrors** Two models available. The stem of the upper mirror can be extended, whereas the lower mirror can be swung back onto the car when travelling without a caravan, thus serving as a normal rear view wing mirror.
- ⑦ **Tow Bar** Engineered to high standards and tested to give maximum strength while remaining neat and unobtrusive.

- ⑧ **Roof Rack** Fully adjustable and easily dismantled for storage when not in use. In black.
- ⑨ **Sun Roof Air Deflector** Stylish but functional, made in strong impact plastic material to minimise glare.
- ⑩ **Rear Luggage Tray** Gives the luggage area a well appointed look and provides extra comfort and convenience.
