This diagram shows an exploded view of a lamp assembly. The main components are labeled with numbers 1 through 7. At the top is a rectangular housing (1) with a small circular feature on its top surface. Below it is a mounting bracket (2) with a central slot. A cable (3) with a connector (4) is shown on the left. A series of four circular components (5, 6, 7) are shown in an exploded view below the bracket, with dashed lines indicating their alignment with the bracket's slot. The components 5, 6, and 7 are shown in different orientations, suggesting they are interchangeable or represent different states of the same part.

P12

This diagram shows an exploded view of a lamp assembly. The main components are numbered as follows:

- 1**: The lamp housing, which is a rectangular box with a handle on top.
- 2**: The lamp base, which is a rectangular block with a threaded hole in the center.
- 3**: A screw used to secure the base to the housing.
- 4**: A cable or wire with a connector at the end.
- 5**: A small component, possibly a switch or a connector, located near the cable.
- 6**: A small component, possibly a switch or a connector, located near the cable.
- 7**: A small component, possibly a switch or a connector, located near the cable.

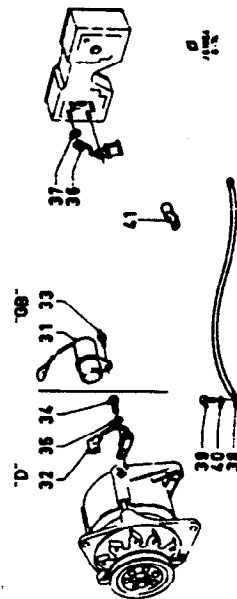

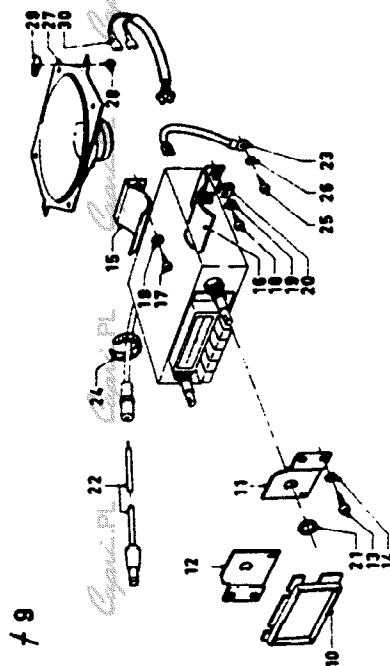

The diagram illustrates the assembly process, showing how the base (2) is attached to the housing (1) using the screw (3). The cable (4) and its associated components (5, 6, 7) are also shown in their relative positions.

[illegible]

This diagram shows an exploded view of a mechanical assembly. The main component is a rectangular block with a complex internal structure, labeled with the number 1. To the left, a cable or hose is connected to a small component labeled 2. Below the main block, there are several smaller components labeled 3, 4, 5, 6, and 7. These components are arranged in a row, with dashed lines indicating their relative positions and assembly sequence. Component 3 is a small cylindrical part, while components 4 through 7 are larger, more complex parts with various features like flanges and mounting points.

This exploded perspective view shows the main unit (1) with a cable (4) attached. Below it is a rectangular module (2) with a central rectangular opening. Various screws (3, 5, 6, 7, 8, 9, 10, 11) are shown in an exploded state, indicating their assembly points on the device. A separate cable (4) is also shown.

A schematic diagram of a three-phase motor system. It shows a three-phase power source (labeled 30) connected to a three-phase motor (labeled 31). A capacitor (labeled 32) is connected in parallel with the motor. A switch (labeled 33) is connected in series with the motor and the capacitor.

This diagram shows an exploded view of a mechanical assembly. At the top is a rectangular component with mounting tabs, labeled '1'. Below it is a small assembly consisting of a pin (labeled '2') and a spring (labeled '3'). To the right is a component with three vertical pins, labeled '4'. At the bottom is a large, complex component with a gear-like structure, labeled '5'. A pin (labeled '6') is shown passing through the large component and the spring assembly.

- A) NOT REQUIRED WHEN USING RADIO RECEIVERS WITH AUTOMATIC INTERFERENCE SUPPRESSION
NICHT ENDFÖRDERLICH BEI RADIOGERÄTEN MIT AUTOMATISCHER STÖRUNTERDRÜCKUNG
PAS REQUIS EN UTILISANT DES POSTES DE RADIO AVEC ANTI-PARASITAGE AUTOMATIQUE
NO NECESARIO CUANDO SE UTILIZA RADIORECEPTORES CON SUPRESION DE INTERFERENCIAS AUTOMATICA

ANTENNE

ANTENNE
ANTENNA

- A) NOT TO BE USED AS A REPLACEMENT FOR THE PRODUCTION-INSTALLED TYPE WITH 22 MM MOUNTING HOLE
NICHT ZU VERWENDEN ALS ERSATZ FÜR PRODUKTIONSAUSFÜHRUNG MIT 22 MM ALFNAHMELOCH
NE PAS UTILISER POUR REMPLACER LE TYPE INSTALLÉ EN USINE AVEC TROU DE MONTAGE DE 22 MM
NO SE EMPLEA PARA REEMPLAZAR EL TIPO INSTALADO EN LA FABRICA CON AGUERO DE MONTAJE DE 22 MM

FOR 18-22 MM HOLE DIAMETER USE ONLY WITH SET:

FÜR LOCHDIAMETER 18-22 MM NUR IN VERBINDUNG MIT SATZ:

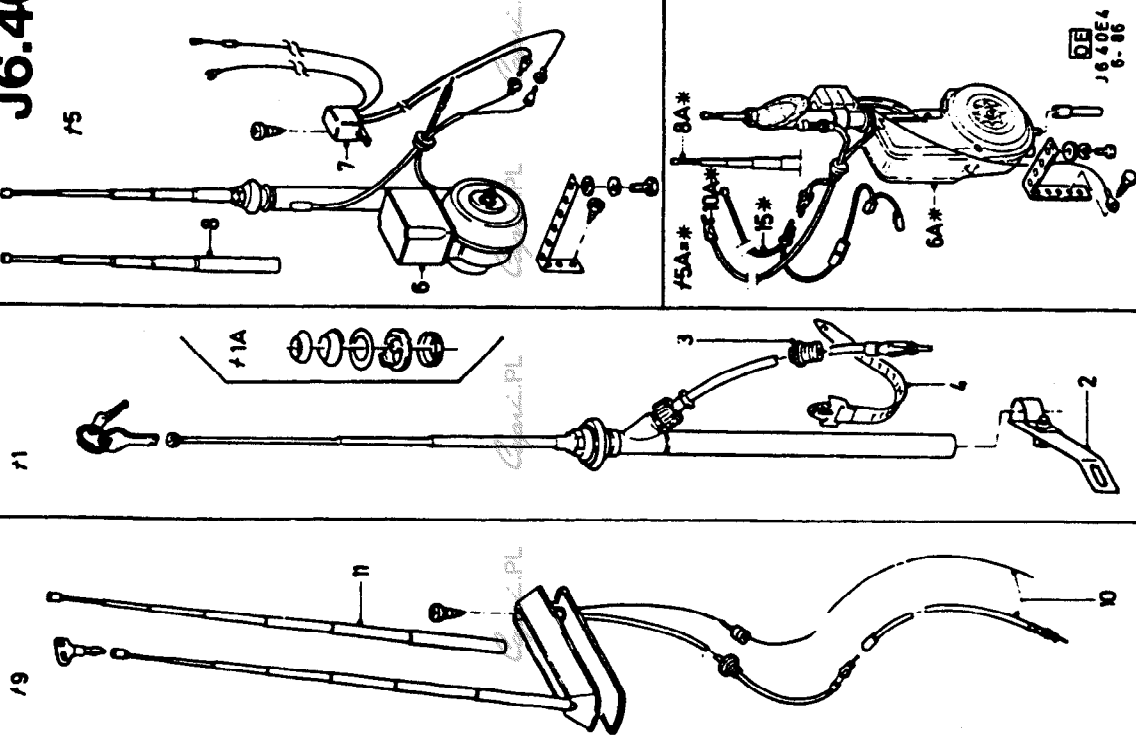

POUR TROU A 18-22 MM DE DIAMETRE UNIQUEMENT UTILISER AVEC EU:

PARA AGUERO CON DIAMETRO DE 18-22 MM SOLO EMPLEAR CON JUEGO:

- B) - 5010548 HIRSCHMANN

- C) - 5010547 PODOG
